Summary

Front-End Developer with more than 5 years of experience in specialising in scalable high-performance web applications using HTML/CSS semantics for the ecommerce fashion brands and healthcare sectors. Skilled in client communication to ensure a clear understanding of requirements and project alignment. Executed projects for enterprise clients valued at more than \$70 million in Denmark, Sweden and Norway Committed to an innovative approach in driving project success by staying informed about industry trends.

Experience

Hello Retail

Frontend Developer

04/2022 - 08/2024

- Responsible for frontend design, development, and implementation for Hello Retail clients
- Led a frontend development team, communicating with all international team members to ensure adherence to coding standards, efficient task allocation, and timely project completion
- Expertise in utilising company algorithms to track buyer interests and strategically placed products on the front page, resulting in increased visibility and sales by 20%
- Implemented cutting-edge solutions on various e-commerce platforms such as Shopify, WooCommerce, and Magento, tailored to meet client specifications and business objectives
- Ensured seamless user experience across all devices by employing responsive web design techniques, optimising layout and functionality for different screen sizes on more than 200 projects
- Managed an array of enterprise-level projects across diverse industries including lifestyle, retail, designer fashion, and healthcare

Auxilio Tech

Frontend Developer

10/2021 - 04/2022

- Developed dynamic reactive forms tailored for the medical industry using advanced Angular features
- Customised Angular reactive forms for medical data integration processes, resulting in positive feedback from stakeholders
- Optimised user experience by incorporating real-time validation features, resulting in reduced errors and faster form completion times by 30%
- Integrated Angular reactive forms with backend systems for seamless data interactions
- Documented technical specifications, architectural decisions, and best practices for future reference and knowledge sharing within the development team

Innventé

Frontend Developer

07/2020 - 07/2021

- Participated in the design and front-end development of web-based software
- Translated complex UI designs into responsive and pixel-perfect markup by meticulously aligning elements, spacing, typography, and colours to the design specifications
- Ensured cross-browser compatibility and consistency across platforms
- Collaborated closely with designers, developers, and project stakeholders
- Optimised web assets (images, fonts, scripts) for performance and accessibility, adhering to best practices such as lazy loading, image compression, and semantic HTML markup
- Worked closely with back-end developers to integrate front-end components with server-side logic and design solutions
- Proactively identified and resolved scalability issues by following design guidelines and brand principles

Eikon7

Junior Web Developer

04/2019 - 05/2020

- Assisting the web development team with all aspects of website and application design
- Collaborating with developers to implement new web features
- Converting designs to responsive websites
- Keeping up-to-date with the latest technology and programming trends
- Engaged in utilising BI tools to visualise data effectively, extract actionable insights, and make critical business decisions

Experience

Serena Hotels

IT Support Technician

10/2018 - 12/2018

- Refreshed hardware and resolved software issues on over 400 key card technologies to minimise disruption
- Installed and upgraded software, including antivirus programs, for enhanced system security
- Managed inbound and outbound support calls efficiently to address user queries
- Offered concise information and support to users for effective IT resource utilisation
- Performed tests and evaluations of new software for better customer satisfaction

Education

National University of Modern Languages

Bachelor's Degree in Computer Science

09/2014 - 10/2018
